Bob -

Karen & I want to thank you for the great job you did on our house. We are enjoying every bit of the new space and we couldn't be happier with the way things turned out. It was an enjoyable process and we both enjoyed working with you. We certainly appreciate your professionalism and attention to detail - I know it made for a smoother process. Please extend a special thanks to Kevin and George & crew. They were great, as was everyone who worked on the project. Enclosed is a small token of our appreciation - please enjoy it (we've heard the Campello in Eden Prairie & on Lake St. and both are good). Good luck with your current projects. We're always here as references. Thanks again!

Dennis & Karen
